FENCE BONUS POLICY

Fence Bonus of \$12.50 per rod be payable on all fences constructed adjacent to open Municipal road allowances on the following conditions:

1. Location of the fence line must be on the surveyed lot line and/or be approved by the Manager of Municipal Works.
2. The fence bottom be cleared of all trees and brush, stones and stone piles, to a distance of 24 inches on either side of the property line.
3. Posts:
 - a) Spacing to be a maximum of 17 feet between posts.
 - b) Wooden line posts must be of cedar or pressure treated creosoted wood with a top measurement of 5 inches minimum. Anchor posts must be of the same material with a top measurement of 8 inches.
 - c) Steel fence posts may be used in lieu of wooden posts in a maximum ratio of 3 steel line posts between each wooden line post.
 - d) No installation of wooden posts with butt end up will be permitted.
4. Wire: New standard nine strand woven fence be used or its equivalent as approved by the Manager of Municipal Works.
5. The fence must be properly constructed with good workmanship and materials as to meet the satisfaction of the Manager of Municipal Works.
