Notice of Water Main Break
Davy Drive water system
(Only residents affected will receive this notice)

This notice is to advise that we are experiencing an emergency situation at this time with a break in the Davy Drive Water System. Contractors are on-site but unfortunately it may take several hours to repair the damage and you will be without water during that time.

Due to Ministry of Environment Regulations, when there is an interruption of service, we are required to test the water after start-up. Sample results to confirm water quality can take 24 hours to receive from the lab – so we ask that you bring your water to a rapid rolling boil for at least one minute once restored prior to consumption.

We will provide you with a second notice to confirm the water is safe to drink.

If you have any special needs or concerns, please contact Dave Readman, Manager of Environmental Services at 705-484-5374 ext. 285 for assistance.

We apologize for any inconvenience this may cause and we appreciate your understanding and cooperation in this matter.

Sincerely,

Dave Readman
Manager of Environmental Services
