Notice of Fall Hydrant Flushing

October 19 to October 30, 2020

This notice is to inform residents that flushing and winterizing hydrants throughout the Township is scheduled this year between October 19 and October 30.

This process is necessary maintenance of the water distribution system.

While the flushing is underway, short periods of low pressure and discoloured water may be expected. Any discolouration is temporary and not a health hazard. Residents are asked to minimize their water consumption and avoid doing laundry if a change in water appearance is noticed. To clear water lines, residents are advised to turn on their cold water tap in a bathtub or laundry tub until the water runs clear.

If water discolouration persists, residents should contact the Township at 705-484-5374 ext. 285 (toll free 1-800-663-4054 for 689 exchange).

The Township of Ramara appreciates the cooperation and understanding of its residents during this program, and we thank you for your cooperation and apologize for any inconvenience this program may cause.
