WEED REMOVAL PLAN

In mid-2021, the County of Simcoe Waste Management Division advised staff that it would no longer accept water-saturated weeds from the canal; instead, they required staff to dry out the weeds to an agreed-upon standard before disposing of them. Staff have advised two options for weed removal for 2022.

1. Dispose weeds at the County of Simcoe Landfill. This includes:
 - a. hauling material to a pre-determined area;
 - b. drying material by separating and agitating it;
 - c. placing material in a waste bin for hauling to a County of Simcoe Landfill site.

This cost of this proposal is estimated at \$1,384.25 per bin exchange

2. Hire Company to dispose of weeds. This includes:
 - a. hauling material to a pre-determined area;
 - b. contracted company to dry material by separating and agitating it, and haul material away.

The cost of this would be \$3,005.80 per load including additional fees for the use of Township vehicles and equipment.

L.C.P.W.C. approved for staff to continue working with the County of Simcoe to find a feasible solution for weed disposal.

2022 SPEAKER SERIES

In partnership with the Lagoon City Community Association (L.C.C.A.), the L.C.P.W.C. is hosting a Speaker Series in the spring of 2022 to help residents learn about the health of Lake Simcoe, become excellent stewards of their waterside properties and understand how governance is applied to lands and waterways. Information regarding this series is posted on the L.C.P.W.C. web page at www.ramara.ca/LCPWC. A sign-up form and information about how the meeting will be conducted will be posted in late February.

WEED HARVESTER

Staff are working on the Township's currently used weed harvester to ensure it is ready for the 2022 season. Staff are also investigating renting a second harvester for the 2022 season as the purchased harvester may not arrive until after the 2022 weed harvesting season.

NORTH FOOTBRIDGE ABUTMENT REHABILITATION TENDER

The final tender is now posted on the Townships [Bids and Tenders](#) page. Staff did advise that the foot bridge will be closed to all pedestrian and marine traffic during rehabilitation scheduled for completion between late spring and early summer.
